

Cover Letter

There is not a single other candidate that has done more research into Traction Sports Performance and has been more impressed than I have. As an aspiring athletic trainer, I am so captivated by Beau Lowery's career and would love the opportunity to work and learn from him and everyone else at Traction. I love the concept of the *7 Pillars of Sports Performance* and cannot wait to learn and internalize the knowledge Traction has to offer.

I am the right candidate for this position because of my ambition and willingness to learn. I am always seeking knowledge everywhere I go. I can guarantee that when given the opportunity to intern at Traction, I will take advantage of every second there knowing this opportunity will be an important building block of my career as an athletic trainer.

I became a NASM certified personal trainer, because of my love for fitness and athletics. I grew up playing sports and even played some college football on a scholarship. I have a deep love for how the human body can train to become bigger, stronger, and faster.

I spent many years in the sales industry which has magnified my people skills. The ability to work well with others has given me the upper hand when training with clients. My clients tend to look forward to their training sessions and push themselves to get achieve hard-earned results.

I cannot wait to be a sports performance intern at Traction Sports Performance and hope to serve as an asset to the Traction team!
